DETAILED ACTION

Drawings

The drawings were received on October 31, 2006. These drawings are acceptable.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-3, 6-9, and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stone (US Patent 3,796,869) and in view of Britt et al. (US 4,401,050).

With respect to claim 1, Stone teaches an illuminating device comprising light means (Figure 1: 34) for generating light and a light-emitter (42) comprising an after-glowing material for emitting light after the light means is switched off or has extinguished (Column 2, lines 48-56), characterized in that the light-emitter comprises a predetermined pattern for displaying information (44, see Column 2, lines 39-40).

Stone does not teach that the after-glowing means is shaped in a predetermined pattern. Britt teaches an after-glowing means is shaped in a predetermined pattern (Figure 1: 16). It would have been obvious to one of ordinary skill at the time of the invention to have the after-glowing means of Stone shaped in a predetermined pattern for the benefit of locating the pattern as the phosphorescent pattern disappears, as taught by Britt.

Art Unit: 2875

Regarding claims 1-3, 6-9, and 11, applicant has failed to separately argue these dependent claims, therefore, the claims are still rejected for the reasons discussed in the previous office action. As previously noted, Stone teaches the claimed arrangements cited in the prior office action.

Claims 4 and 5 are rejected under 35 U.S.C. 103 (a) as being unpatentable over Stone (US Patent 3,796,896) in view of Cok (US Publication 2005/0127278). Regarding claims 4 and 5, the claims are still rejected for the reasons discussed in the previous office action.

Claim 10 is rejected under 35 U.S.C. 103(a) as being unpatentable over Stone and Britt as applied to claims 1 and 2 above, and further in view of Lynch (US Patent 2,430,232). Regarding claim 10, applicant has failed to separately argue this dependent claim, therefore, the claim is still rejected for the reasons discussed in the previous office action.

Response to Arguments

Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
